

# MagniLink iMax

Together with video magnifiers from LVI, MagniLink iMax gives the Mac user a complete and unique low vision aid solution! Several advantageous functions makes your Mac usage and reading easier.

## Use your Mac to the max!

MagniLink iMax provides magnification, contour enhancement and pointer settings as well as screen reading with high-quality speech output. The Contrast Enhancement Mode gives a clear picture with smooth character edges regardless of the magnification.

## Which is your mode?

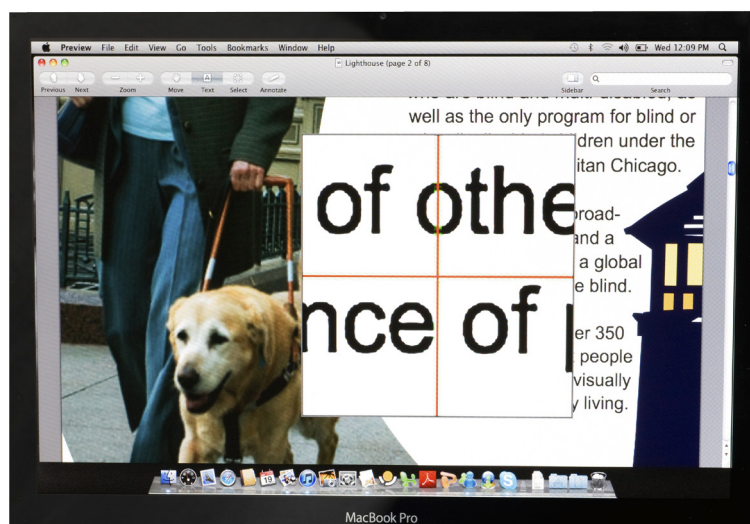

Different types of vision impairments requires different solutions. MagniLink iMax contains a variety of solutions made to meet the users own preferenses. With features like split screen, dual screen support, full screen mode, multiple high-contrast modes, a circular and a squared

lens-zoom MagniLink iMax gives you the ability to set the screen mode based on your own preferences.

## MagniLink + iMax - perfect for low vision Mac users!

MagniLink iMax in combination with our MagniLink units give the user a unique environment for low vision Mac users.

Use MagniLink iMax software to magnify and/or change the operations system inside software, like text edit. Use the split screen to combine this with our MagniLink hardware to magnify live object like books and whiteboards.

## Features & benefits

- The circular and square lens zoom gives the user the opportunity to zoom in for example a website link at the same time as they still can see the background. Therefore the context of the zoomed text is kept in focus.
- MagniLink iMax always gives the user full access to all functions on the screen, for example the menu.
- MagniLink iMax comes with high quality Text To Speech voices from Infovox iVox.
- MagniLink iMax in combination with a MagniLink video magnifier is the best environment for low vision Mac users.

## Further possibilities

- The Automatic Language Identification in the Screen Reader Mode can localize the text language in documents or on websites and switches the speech output to that language.
